IOWA STATE UNIVERSITY Extension and Outreach

We would like to invite you to attend the nineteenth "Update for Veterinarians" sponsored by Iowa State University Extension and Outreach and ISU's Experiment Station. Discussions with local veterinarians identified topics for this year's event, and we have attempted to incorporate those ideas into this training at the McNay Farm.

This program includes several topics of specific interest to beef practitioners. We have included presentations from specialists from Iowa State University for this year's program.
