

## About the Conference

The Three-State Beef Conference is designed to give beef cattle producers and others in the beef industry in Iowa, Missouri, and Nebraska a regular update on current cow-calf and stocker topics. The conference provides a forum of specialists from three of the United States' leading beef cattle land grant universities as well as other industry experts. The 34<sup>th</sup> annual conference will address relevant issues affecting beef operations.

**Preregistrations are appreciated by Friday, January 11, 2019. The registration fee is \$25 per person.** It includes a meal and a copy of the conference proceedings. Calling or emailing your reservation helps with meal plans and helps keep costs down.

If you need accommodations because of a disability, have emergency medical information to share, or need special arrangements in case the building must be evacuated, please inform us immediately.

For more information, contact your local university extension office.

**Meeting sponsored in part by Foundation for Food and Agricultural Research**

## Agenda

- 5:30 p.m. Registration begins
- 6:00 p.m. Filling in the gaps: using annual forages to meet late fall and early spring forage needs—*Dr. Mary Drewnoski, Beef Systems Specialist, University of Nebraska*
- 6:45 p.m. Dinner
- 7:30 p.m. Opportunities and management of corn residue for beef cattle—*Kristen Ulmer, Extension Beef Systems Educator, University of Nebraska*
- 8:15 p.m. Silage as the primary winter feed for beef cows—*Dr. Eric Bailey, State Beef Nutritionist, University of Missouri Extension*

## Locations

- January 15—Warren Cultural Center, 154 Public Square, Greenfield, Iowa, 50849
- January 16—Andrew County Youth Building, 201 S Banyon, Savannah, Missouri, 64485

## Speakers

**Dr. Mary Drewnoski** is a Beef Systems Specialist with the University of Nebraska-Lincoln. Prior to joining UNL, she spent time learning and working in cattle systems in many locations across the U.S. including Kentucky, North Carolina, Iowa, and Idaho. She is a beef cattle nutritionist and is a part of an interdisciplinary team evaluating Economical Systems for Integrated Crop and Cattle Production. Her current research and extension program is focused on the utilization of crop residues and cover crop forage for backgrounding calves and feeding beef cows. Learn more at [beef.unl.edu/cropland](http://beef.unl.edu/cropland). Reach Mary at (402) 472-6289 or email her at [mdrewnoski2@unl.edu](mailto:mdrewnoski2@unl.edu).

**Kristen Ulmer** is a Beef Systems Educator for the University of Nebraska Extension. She is based in Saunders County and accountable for the southeast region of Nebraska. Her area of expertise is in annual forage and corn residue grazing in cattle systems.

**Dr. Eric Bailey** is the State Extension Beef Nutritionist for MU Extension. He joined the University of Missouri in June 2017 after a stint as the Endowed Chair of Cow Calf Nutrition and Management at West Texas A&M University. He was born and raised on a commercial cow-calf and stocker operation outside of Santa Rosa, New Mexico. He has degrees from West Texas A&M University and Kansas State University.

## REDUCING COW FEED COSTS USING CROPLAND

- **Filling in the gaps: using annual forages to meet late fall and early spring forage needs**
- **Opportunities and management of corn residue for beef cattle**
- **Silage as the primary winter feed for beef cows**
